MEDICAL COLLEGE OF BENGAL.

Rules for the guidance of students seeking admission.

1. Two classes of students are admitted for study in the College :—

(*a*) "Regular class" or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University and the provinces of Assam, Manipur State and Central Provinces, and those who come from the Dacca University and Board as provided for in rule 4.

(*b*) "Military class" (only students of European or Anglo-Indian parentage are admitted to this class). (*See* separate prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the (*a*) "Regular class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry, or any examination equivalent to it. In assessing the claims of those eligible for admission, special proficiency in those subjects particularly useful in the medical curriculum will be given the fullest consideration, viz., in English, Physics, Chemistry and Botany.

3. The Summer term commences on the 15th June and closes on the 19th September. The Winter term opens on 5th October and closes on the 31st March.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office on or before the 25th May, together with a fee of Rs. 4, which will not be refunded on any account except in the case of Assamese students, who should apply to the Inspector-General of Civil Hospitals of that province for admission within such date as that officer may prescribe. Students who come from the Dacca University and the Dacca Board of Intermediate and Secondary Education are admitted on the nomination of the Secretary of the said Board and University, and the candidates from the Central Provinces on the nomination of the Director of Public Instruction of that province. The candidate from Manipur will be nominated by the Manipur State.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

	Rs.
Admission fee	25
Fees for Summer term	100
Athletic Club fee	4
Total ...	129

5. The number of regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number, and the final selection lies entirely with him.

One-fourth of the total number to be admitted, if a suitable number of candidates be obtained, shall be Muhammadans. One candidate will be nominated by the Director of Public Instruction, Central Provinces, six candidates by the Inspector-General, Civil Hospitals, Assam, three candidates of the Dacca University and three candidates of the Dacca Board of Intermediate and Secondary Education by the respective authorities. One candidate will be nominated by the Manipur State. These candidates must possess the qualifications mentioned in rule 2. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (*a*) Female students will be admitted to this College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(*b*) Female students already studying in this College but belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay the fee within the date prescribed by the Principal, otherwise their claims will lapse.

8. All regular students must pay an annual fee of Rs. 200 in two instalments, viz., Rs. 100 for the Summer term and Rs. 100 for the Winter term. They must also pay the annual Athletic Club fee of Rs. 4 along with the fees for their Summer term. Fees once paid cannot be refunded except to those whose claim for the refund is tenable under rule 19.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for the Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal directs, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

11. Students relegated to a further course of study after failure to pass the Preliminary Scientific M.B. and the First M.B. Examinations shall pay Rs. 100 for the whole session in one instalment within the time prescribed.

12. Students who fail at the Final M.B. Examination shall pay fees for the whole session at the following rates in one instalment :—

	Rs.
For one subject	25
For two subjects	50
For three or more subjects	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each such subject including lectures and practical classes.

14. The fee for certificates issued to regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of Hospital practice.

15. In calculating the sum to be paid under rule 14 by a regular student, the amount of College fees paid by him (or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student) shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships awarded by the Government of Bengal are not required to pay the annual fees of Rs. 200 for the year in which they hold such scholarships. ADMISSIONS.

SESSION 1926-27.

(1) Applicants for admission should send stamped and addressed envelopes, and state to which year they desire admission, and whether to Arts or Science. The appropriate form will then be sent. Applications not made correctly or on the proper forms will not be considered.

They should be addressed to the Principal and the word "Admission" should be written on the cover. They should reach the office within seven days of the publication of the University results together with the mark sheets in the case of Matriculates and the position in the list in the case of candidates for the B.A. and B.Sc. classes. The Division in which the applicant has passed should be stated. Particular care should be taken to give requisite details regarding arrangements for residence. Unless residing with parents or *related* guardians Hindu students are expected to reside in the Eden Hindu Hostel and Muhammadan students in one of the recognised Muhammadan Hostels.

(3) Presidency College students who pass the Intermediate or Degree Examinations and desire readmission are required to submit applications in the *proper* form. If they fail to do so their prior claim to admission will not be recognised.

(4) Participation in Games or regular Physical exercise will be compulsory for those admitted into both First and Third Year Classes. Other things being equal, preference will be shown in making admission to those who have previously played in their school or college teams. Those who have been members of a team should state the fact in their applications.

(5) The rate of Tuition fees which has hitherto been Rs. 12 per month, with admission fee Rs. 10, is now under the consideration of Government and selected candidates will probably be charged higher fees from the session 1926-27. On the other hand the number of partial freeships available for deserving students who are unable to meet the full fees, is likely to be correspondingly increased.

STATEMENT OF OBJECTS AND REASONS.

The Bill is designed to increase the number of representatives of Indian commerce on the Calcutta Port Commission. It is considered that the most satisfactory way of doing this is to empower the Bengal National Chamber of Commerce to elect four Commissioners instead of one as at present.

The Bill also provides that the Agents of the East Indian Railway, the Bengal-Nagpur Railway and the Eastern Bengal Railway, the Collector of Customs for the Port of Calcutta and the Port Officer, Calcutta, shall be *ex-officio* Commissioners in the five seats hitherto filled by nomination.

RESOLUTION—No. 1585F.

***Subject:* The Calcutta-Alipore-Howrah House Allowance Scheme.**

The object of the scheme set out in the rules which follow is to grant to married Government officers stationed in Calcutta, Alipore or Howrah a measure of relief against the difficulties experienced by such officers in obtaining suitable house accommodation at a rent proportionate to their emoluments. The scheme proceeds on the principle that a married officer, who, by the terms of his appointment, is stationed in any of those places, should not ordinarily be under the necessity of paying more than 10 per cent. of his pay for unfurnished house accommodation. It supersedes the existing Calcutta House Allowance Scheme, and will take effect from the 1st April 1926. The local Government reserve to themselves full power at any time to modify the scheme, and they admit no vested rights to the relief in its present or any other form, or to any compensation owing to its withdrawal or modification.

RULES.

I. These rules shall be called the Calcutta House Allowance Rules. 1926.

II. They shall apply to the following officers :—

(*a*) an officer of an All-India Service whose headquarters, by the terms of his appointment, are in Calcutta, Howrah or Alipore, and whose pay does not exceed Rs. 3,000 a month and has not been fixed with special reference to the higher cost of living in the places mentioned in Schedule A ;

(*b*) an officer holding an appointment admitted to the Calcutta House Allowance Scheme which these rules supersede ; and

(*c*) an officer holding an appointment to which Government by special order declares that these rules shall apply :

Provided that without the specific sanction of Government no allowance shall be paid under these rules to—

(*i*) an officer occupying quarters provided by Government, whether free or on payment of rent ;

(*ii*) a medical officer who is allowed the privilege of private practice ; or

(*iii*) an officer drawing a compensatory allowance granted in consideration of the expensiveness of the locality, a Presidency House Rent Allowance or a Presidency Allowance.

III Any officer mentioned in Rule II above, who occupies on payment of rent accommodation other than a residence owned or hired by Government, or resides in a hotel or boarding house in one of the places mentioned in the Schedule A annexed to these rules, and whose wife or child is resident

with him, shall be entitled under these rules to a house allowance on the following scale :—

Pay.	Assumed rent.	Amount of house allowance per month.
	Rs.	Rs.
Under Rs. 300	.....	45
Rupees 300 to 499	.....	80
,, 500 to 1,249	.....	125
,, 1,250 to 1,999	350	Actual rent (subject to a maximum of Rs. 350) less 10 per cent. of pay.
,, 2,000 to 2,499	400	Actual rent (subject to a maximum of Rs. 400) less 10 per cent. of pay.
,, 2,500 to 3,000	450	Actual rent (subject to a maximum of Rs. 450) less 10 per cent. of pay.

Proviso.—When the rent paid by an officer whose pay is between Rs. 800 and Rs. 1,249 exceeds Rs. 125 *plus* 10 per cent. of his pay, Government may sanction an allowance equal to the actual rent less 10 per cent. of his pay, provided the allowance so sanctioned does not exceed Rs. 225.

NOTE 1.—For the purpose of calculating the allowance admissible on the above scale, pay will be as defined in Fundamental Rule 9 (*21*) and will include sterling overseas pay the rupee value of which will be calculated throughout the financial year at the current rate of exchange prescribed for March of the previous year.

NOTE 2.—"Actual rent" means rent, exclusive of occupier's taxes, of unfurnished accommodation.

(*a*) If the rent paid includes occupier's taxes and the actual amount of such taxes is not known, a deduction of $\frac{1}{12}$th shall be made from the gross rent.

(*b*) If the accommodation rented is furnished, and the rent payable to the lessor includes a payment on account of the hire of furniture, the rent of the unfurnished accommodation shall be taken to be $\frac{5}{8}$ths of the rent of the furnished accommodation.

(*c*) When the amount payable by an officer residing in a hotel or boarding house or as a paying guest includes, in addition to rent, charges on account of food, furniture, service, lighting and taxes, or of any of these or similar items, and by reason of this it is impossible to calculate the "actual rent", the allowance admissible shall be as follows :—

Pay.			Allowance.
			Rs.
Under Rs. 300	...	...	45
Rupees 300—499	...	...	80
Rupees 500—1,249	...	...	125
Rupees 1,250—1,999	...	...	300*
Rupees 2,000—2,499	...	...	350*
Rupees 2,500—3,000	...	...	400*

* Less 10 per cent. of pay.

Provided that the allowance admissible to an officer whose pay is between Rs. 800 and Rs. 1,249 may be increased under the orders of Government to an amount not exceeding Rs. 175.

NOTE 3.—In cases in which the pay and allowance of an appointment are limited to a fixed maximum, the allowances admissible under these rules shall not count towards the maximum.

NOTE 4.—If an officer sublets any part of his accommodation to, or recovers any part of the actual rent from, another officer, to whom these rules do not apply, the allowance admissible to him shall be reduced by 10 per

cent. of the lessee's salary ; or if he sublets any part of his accommodation to, or recovers any part of the actual rent from, a non-official, a reduction of ⅔ths of the actual rent will be made in calculating the amount of his allowance.

Except as provided in Rule V, no two officers shall draw an allowance under these rules in respect of accommodation in the same house, flat or residence.

IV. An officer shall not draw the allowance until he has occupied accommodation in a house or flat or boarding house or hotel with his wife, or child or children, and has undertaken a liability to pay rent (or a sum including rent) for the same.

An officer may, however, continue to draw the allowance during either his own temporary absence on official duty or the temporary absence of his wife, or child or children, if he is able to certify that the rent during that period is not less than it would have been had he been resident there with his family :

"Provided that, for the purpose of this rule, the length of such temporary absence" shall not exceed—

(*i*) if the accommodation occupied is a house or flat, a period of seven months' continuous absence at any one time or a total period of seven months' absence in any one calendar year ;

(*ii*) if the accommodation occupied is in a hotel or boarding house, a period of three months' continuous absence at any one time or a total period of three months' absence in any one calendar year.

NOTE 1.—The absence of an educational officer of the professorial branch during the period of vacation shall be treated as absence on official duty.

V. If two or more officers entitled to a house allowance under these rules occupy one house, flat or residence, each such officer shall be required to make a declaration of the amount of rent actually payable by him : provided that nothing in this rule shall be construed so as to entitle an officer to an allowance in excess of that which would be admissible under Rule III, the allowance admissible to each such officer shall be the rent actually payable by him less 10 per cent. of his salary.

VI. If an officer, who would otherwise be entitled to an allowance under these rules, resides in his own house, Rules III and IV notwithstanding he shall be entitled to draw an allowance at the rates prescribed in Rule III, provided that if his pay is Rs. 1,250 or over the amount of the allowance shall be fixed in each case by the local Government.

VII. Every bill for an allowance payable under these rules shall be supported by one of the certificates appended to these rules. No retrenchment shall be made so long as the allowance is admissible under the letter of the rule : but the audit officer should report for the orders of Government any case in which it appears that the rules have been deliberately abused.

By order of the Governor in Council,

M. C. McALPIN.

Secretary to the Government of Bengal (offg.).

NOTIFICATION.

No. 2466Com.—The 14th May 1926.—The Twentieth Annual Report of the Bengal Smoke-Nuisances Commission for the year 1925 is published for general information.

M. C. MCALPIN,
Secretary to the Government of Bengal (offg.).

Twentieth Annual Report of the Bengal Smoke-Nuisances Commission

1. At the close of the year under report the Commission was composed as follows:—

J. N. GUPTA, ESQ., M.B.E., I.C.S., Commissioner of the Presidency Division, *President.*

S. C. MUKERJEE, ESQ., I.C.S., Magistrate of Howrah.

R. P. ADAMS, ESQ., O.B.E., A.M.I. MECH. E., Chief Inspector of Factories, Bengal.

ENGINEER-COMMANDER W. A. WILLIAMS, M.I.E. (Ind.), A.M.I.N.A., R.I.M., Principal Engineer and Ship-Surveyor to the Government of Bengal.

GEORGE ROBERTSON, ESQ., the Union South Jute Mills, Buddertolla,
J. D. BALFOUR, ESQ., Messrs. Burn & Co., Ltd., Howrah,
} representing the Bengal Chamber of Commerce.

J. N. CHUNDER, ESQ., Messrs. S. C. Chunder & Co., representing the Bengal National Chamber of Commerce.

N. MACLEOD, ESQ., M.I.M.E., representing the Calcutta Port Commissioners.

BABU SUKUMAR RANJAN DAS, M.A., representing the Municipal Corporation of Calcutta.

J. ROBSON, ESQ., A.M.I.M.E., Chief Inspector and Secretary.

2. The Commission during the year under review held 12 meetings. They kept abreast of the latest international achievements in smoke abatement, considered the best methods for improving efficiency and securing co-operation by rendering service to the owners and the public. The result of the general policy adopted has been a reduction of the smoke-nuisance. The average emission of smoke from each chimney for this year as shown in the Appendix is 1·19 minutes in the hour against 1·39 for the previous year, and is also the lowest attained. The importance of this reduction is apparent when it is realised that it represents a total daily reduction of 5,000 minutes of black smoke, the effect of which is that this year's atmosphere was visibly cleaner than that of last year.

3. The Chief and Assistant Inspectors made 14,442 smoke observations against 11,708, and the visits to factories, etc., for instructional and testing purposes were 3,710 against 3,410 for the previous year.

4. During the year 2,759 offences were reported to the owners for their departmental action against 2,262 for the previous year and the Commission gratefully acknowledge the beneficial results of the action by the owners which was generally taken at once. In some cases it was necessary to bring into operation the penal sections of the Act. Statutory Warnings were served in 12 cases and prosecutions instituted in 5 cases against 34 and 14, respectively, for the previous year.

5. The public continues to apply freely for relief to the Commission. During the year 59 complaints were received against 56 for the previous year, and relief was given wherever possible. In addition many references were received from the various municipalities, necessitating, in many cases, careful tests and lengthy observations.

6. Properly proportioned furnaces, flues and chimneys are the basic factors for efficient smoke abatement, increasing the power of the plant and reducing the overhead and fuel expenses. During the year the Commission examined and approved 79 plans of which 70 were made in the office of the Commission. Plans on request were also supplied to mills outside the controlled area and to other Provinces. In this respect the Commission's wide experience as service was always at the disposal of the owners.

7. Following the general trend throughout the world, some of the larger mills have fitted appliances for using low grade fuel and in those of the cases in which the design was good, excellent results have been obtained. In others there has been considerable trouble with smoke, when using the smokier coal, as the system for supplying air to the fires gives an unbalanced distribution. However, action is being taken to rectify this defect.

The most advanced and promising installation is that of a large jute mill recently completed, and fitted with air preheaters. The preheating of the air for burning the coal was originally introduced for abating smoke and after many years has become an economic achievement on a large scale. This particular installation is understood to be the first of its kind in India. There is no economizer the waste gases from the boiler preheat the air. The temperature of the feed water to the boiler is raised by the exhaust from the auxiliaries and bleeding from the main engine. The results are remarkable both for fuel economy and smoke reduction.

8. Recently, the rice mill owners represented that owing to the present trading conditions more fuel is being used than the profits of the industry can stand and requested assistance. The Commissioners decided to investigate whether the present method of using live steam from the boiler for steaming paddy could not with suitable manipulation be replaced by the exhaust steam from the engine. This, if successful, should reduce the total fuel consumption by over 25 per cent., and also reduce the smoke.

9. The solids in smoke (soot, grit, ash, etc.,) cause the greatest damage to health and property, and the achievements in smoke reduction have not always secured the desired reduction of the objectionable solids. Recently in one of the most successful smoke departments, where a remarkable reduction of smoke had been effected, they had the apparently astounding experience that the total discharge of solids had increased. To reduce smoke and increase the capacity of the plant the draft is usually increased, and this increased draft carries more of the light particles of the fuel into the atmosphere. So, the modern problem is also to reduce the discharge of solids, and this is under the consideration of the Commissioners. In this direction also some progress has been attained, as in the mills using light fuel a remarkable reduction of smoke has been effected and the installation of suitable appliances has prevented the annual discharge of 20,000 tons of solids into the atmosphere of Calcutta.

10. Smoke abatement engineering has many phases, ever changing with the developing art of using fuel. To maintain the required smoke abatement in the 80 square miles of controlled area necessitates unremitting effort, frequent inspection, tests and advice, constant observation of the smoke emission from chimneys. Any slackening of efforts quickly produces an increase in the nuisance, difficult to reduce.

The Commissioners consider the present system of observation inefficient and, on their recommendation, Government has recently sanctioned a scheme under which the whole of the area under control can be observed from a central smoke observatory.

11. Electric and gas appliances, both for commercial and domestic use, should be encouraged as permanent remedies for atmospheric pollution caused by smoke. During the year, 646 motors aggregating 5,480 horse power were connected to the system of the Calcutta Electric Supply Corporation.

12. The most deadly of the smoke-nuisances is the low-lying smoke discharged at ground level from over a quarter of a million furnaces, which for several hours particularly during the cold weather evenings shrouds some suburban areas in an irritating and suffocating pall through which it is impossible to see even a few yards ahead. To deal with the abatement of this smoke as a whole is a question of great difficulty. But, some improvements can be effected by the introduction of gas appliances, and the Commission are glad to see that increasing progress is being made in this direction.

During the year, the Oriental Gas Company have fixed 1,220 gas appliances, in the city, of which 414 were for water heating, 492 were cookers for domestic and hotel use and 264 boiling rings, 42 miscellaneous appliances for domestic and industrial use, 6 gas engines for power purposes, and 2 large ovens for biscuit making. They also state that several of the largest buildings have been fitted throughout with gas appliances and nearly all of the smaller buildings recently erected have been so fitted. One of the leading hotels has abolished their smoky coal range and has fitted the largest gas heated range in India, which is giving entire satisfaction.

13. Some impression regarding the appalling financial loss and the ghastly waste of human life and energy which is caused by the smoke nuisance, which is not generally realised may be obtained from the following extracts from "Facts about fuel for heat and power":—

"Manchester, in laundry bills alone spends annually £250,000 more than she would spend if her air was as clean as that of Harrogate."

"In New York, nearly 20 years ago, laws to prohibit the smoke-nuisance were passed and strictly enforced and the atmosphere of New York became entirely untainted by smoke. In 15 years the death rate from tuberculosis was reduced 66 per cent.."

"Three months absence of coal smoke during the great stoppage of mines in 1921 saved the lives of 457 persons in Glasgow, the deaths from respiratory diseases during that period being only 539 against 996 in the corresponding period of 1920"

14. It is generally claimed that efficient smoke abatement benefits the owners. The experience of the Commissioners is, the annual saving in fuel effected through their efforts is over 40 times the cost of running this department.

Chief Inspector and Secretary.

J. N. GUPTA,
President.

Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1925-26.

[NOTE.—On an average of the five years ending 1923-24, the area under linseed in Bengal has represented some 3·8 per cent. and that under rape and mustard 18·7 per cent. of the total area under these crops in British India.]

Character of the season.—As reported in the preceding forecast, the weather was generally favourable at the outset. Uneven distribution of rainfall during the period of growth affected the crops. Excessive rain accompanied by hail at harvest time in March further reduced crops in East Bengal. This, combined with damage done by insect pests in most of the important districts, made the season a poor one on the whole.

Acreage.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 900—100 acres this year as against 884,600 acres last year.

Outturn.—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 55 per cent. of the normal as against 75 per cent. last year.

Taking 5¾ maunds as the normal rate of yield per acre for linseed, 6 maunds for rape and mustard and 4¼ maunds for other oilseeds, the total yield of the crops for the province is estimated at 106,300 tons this year as against 144,000 tons last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Wheat Crop of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under wheat in Bengal has represented some 0·4 per cent of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India, and (*b*) in the territory now reported on has, in the five years ending 1923-24, averaged (*a*) 42·2, and (*b*) 14·7 per cent., respectively.)

Character of the season.—As indicated in the preceding forecast, the outturn was considerably reduced in the important districts of Malda and Murshidabad, owing to drought in the former and cloudy weather and untimely rainfall in the latter. Damage by hail was also reported from some places. In the lesser districts of Midnapore, Jalpaiguri and Faridpur the crop was helped by the showers of early March. Later on, excessive rainfall accompanied by hail at reaping time in April caused further damage in the districts of Nadia, Jessore and Mymensingh. On the whole, the season was a fair one for the crop.

Acreage.—According to the District Officers' estimates the total area sown is 130,500 acres this year as against 126,400 acres last year.

Outturn.—The provincial outturn, as worked out from district estimates, is 69 per cent. of the normal as against 64 per cent. last year. Taking the normal yield to be 8⅓ maunds per acre, the gross yield of the crop for the province is estimated at 27,600 tons this year as against 24,800 tons last year.

At the end of April, the average wholesale price of wheat at the principal marts of the province was Rs. 6-15 per maund or about 4·7 and 32·1 per cent. higher than the prices ruling at the corresponding periods of last year and the year preceding, respectively. The average wholesale price of common rice at the principal marts, on the other hand, was Rs. 7-2-3 per maund or about 1·5 and 25 per cent. higher than the prices ruling at the corresponding periods of last year and the year before, respectively.

NOTIFICATION.

No. 2486Pl.—The 26th May 1926.—Whereas the Governor in Council is satisfied for the reasons hereinafter set forth that the public tranquillity and security of life and property in the Presidency Area are endangered:

Now therefore, in exercise of the powers conferred by section 3 of the Presidency Area (Emergency) Security Act, 1926 (Bengal Act III of 1926), the Governor in Council declares that a state of emergency exists.

Reasons.—The recent disturbances in Calcutta which involved serious loss of life and property extended with one interval of tranquillity from the 2nd of April to the end of the month were due to conditions which have not yet been removed. Bitter feelings still subsist between the Hindu and Muhammadan communities, and the renewal of rioting on the 22nd April after a calm interval shows that while these feelings subsist there is danger of a fresh outbreak. The Governor in Council is therefore satisfied that a state of emergency exists and that the use of the special powers conferred upon him by the Act is necessary to bring it to an end.

Chief Secretary to the Government of Bengal.

RAILWAY.

The following draft of a notification containing rules which the Governor in Council proposes to make under section 42 of the Bengal Aerial Ropeways Act, 1923 (Bengal Act VII of 1923), is published for the information of persons likely to be affected thereby.

The rules will be taken into consideration on or after the 1st September 1926, and any objection or suggestion which may be received by the undersigned through the District Magistrate and the Commissioner of the Division before that date will be duly considered :—

Draft notification.

In exercise of the power conferred by section 42 of the Bengal Aerial Ropeways Act, 1923 (Bengal Act VII of 1923), the Governor in Council is pleased to make the following rules, namely :—

1. A notice under section 6 shall be sent by registered post acknowledgment due to the owner, agent or manager of every affected property not belonging or appertaining to the promoter of the ropeway, a plan and index showing the proposed position of the ropeway in so far as it affects the property in question.

2. When an accident of the description contained in section 20 of the Act occurs on or about a ropeway, the promoter of the ropeway or his agent or manager shall, within twenty-four hours of the occurrence of such accident, give written notice of the accident to the Local Government and to the Inspector, if an Inspector has been appointed. The notice shall state the name, sex and occupation of persons killed or injured, if any, the nature of the injury, and, if fatal, the cause of death, the date and hour of the accident, the place of accident, and a description of how the accident occurred.

3. A ropeway shall be so aligned that in no circumstances shall a carrier be able to foul any post, structure, building, tree, telegraph or telephone line, power cable or another carrier. The minimum clearance shall be not less than 5 feet assuming a maximum wind pressure of 50 lbs. per square foot acting in a direction horizontal to the carrier.

4. A ropeway shall be constructed with minimum factors of safety as follows :—

	Minimum factor of safety at the point of maximum stress.
Ropes—	
Mono-cable	5
Bi-cable—	
Carrying rope	4
Hauling rope	5
Structural steel work	4
Other ropeway fittings	5

Trestle foundations must be sufficiently large to give a moment 50 per cent. greater than the overturning moment due to a wind pressure of 50 lbs per square foot on the structure and on the ropes and carriers supported. For tall trestles guy ropes may be used.

5. Station gear and trestle sheaves shall be so designed that lubrication can be performed safely whilst the ropeway is in motion.

6. Where a ropeway passes over a public road or a railway on which the passengers are carried, a bridge under the ropeway shall be provided and maintained by the promoter, and such bridge shall be so constructed as to prevent persons from being endangered by anything falling from the ropeway. The minimum clearance under the bridge shall be 16 feet.

7. Where a ropeway passes over a railway, tramway, canal or navigable river the minimum clearance under the load shall ordinarily be 16 feet. The Local Government, however, may require the clearance to be such an amount as they think necessary.

8. The clearance between the carriers on a ropeway and the ground shall not be less than 8 feet except at stations, which shall be so fenced as to prevent danger.

9. All carriers shall be provided with appliances which prevent the container from discharging its contents except at points where it is intended to discharge them.

10. Reliable devices, approved by the Inspector, for signalling between the terminal and junction stations shall be provided.

11. A competent person, appointed by the promoter or his representative, shall daily inspect all posts, ropes, machinery, gear and other appliances, and shall record in a book to be kept for the purpose a true report of the inspection stating what defects, if any, were noticed.

12. The ropeway shall not be worked unless the posts, rope, machinery, gear and other accessory appliances are in proper order.

13. For the purpose of giving signals on the ropeway the owner or his representative shall appoint in writing persons to give the signals, and shall satisfy himself that they are competent to give the signals and are familiar with the code of signals in use.

14. No person shall remain under the rope while carriers are being moved.

15. No person shall ride on an aerial ropeway without the written permission of the promoter or his representative; and permits to ride on a ropeway shall be granted only to persons employed in lubricating, repairing or inspecting the ropeway.

16. Persons travelling on a ropeway for the purpose of inspection, lubrication or repairs shall be securely fastened to the carriers.

17. No person shall undertake repairs to the machinery or the line while the rope is in motion.

18. No unauthorised person shall enter a ropeway station or climb up the posts carrying the rope.

No. 5R. dated Calcutta, the 18th May 1926.—In exercise of the power conferred by clause (*f*) of section 4 of the Bengal Aerial Ropeways Act, 1923 (Bengal Act VII of 1923), the Governor in Council is pleased to require that the following plans, maps, sections and drawings shall be included in an application under section 3 of the said Act.

1. A plan on a scale of not less than 165 feet to one inch, showing—

(*a*) all land, permanent structures, roads, railways, canals and public embankments within 50 yards of the alignment of the ropeway;

(*b*) the boundaries of all land and the surface and subterranean boundaries of all mining properties which lie within 50 yards of the alignment of the ropeway;

(*c*) the position of every part of the ropeway;

(*d*) the position of every permanent structure or any part of it which lies within 50 yards of the alignment of the ropeway; and such permanent structures shall be numbered serially on the plan, and an index under the corresponding number shall be provided giving a full and clear description of each permanent structure and the name and address of the owner of the structure.

The plans and accompanying documents shall be in duplicate.

2. When the alignment of the ropeway or an extension thereto passes over or within 50 yards of any part of a foreign property the promoter shall furnish with his application under section 4, and for each foreign property owner affected, an additional copy of the plan and index required under paragraph 1. Such additional copies shall be limited to the areas lying within the boundaries of the individual foreign properties crossed by the alignment of the ropeway or within 50 yards of the same.

3. In this order—

(*a*) the expression "foreign property" means property not belonging or appertaining to the promoter of the ropeway;

(*b*) the words "permanent structure" include pit heads, engine houses, boiler-houses, electrical and mechanical installations and masonry buildings.

APPENDIX IV.

(*See* paragraph 14 of the Regulations.)

NOTE.—This Appendix is merely intended to show the principal leave rules in the Fundamental Rules and the Pension Rules at present applicable to Engineers appointed to the Indian Services from the United Kingdom without going into minute details, and does not profess to deal with every case that may arise. The rules are subject to alteration, and any disputed question must be decided with reference to the authorised text of the Fundamental Rules or Civil Service Regulations for the time being.

LEAVE.

(*The following rules apply only to officers of non-Asiatic domicile. Officers of Asiatic domicile will be subject to the ordinary leave rules in the Fundamental Rules.*)

1. Leave is calculated in terms of "leave on average pay," and the amount of "leave on average pay" which an officer earns is five-twenty-seconds of the period spent on duty.

2. Subject to certain maxima and minima, an officer may draw, at his option, leave salary equal to the average pay of the last 12 months of completed duty or to half such average pay. All leave on average pay, and half the period on half average pay is counted against the leave earned. An officer may take his leave on average pay, on half average pay, or on a combination of the two, provided that his continuous absence from duty does not exceed 28 months, and that the amount of leave taken on average pay does not exceed eight months at any one time. The maximum amount of leave admissible during an officer's career is the equivalent of leave on average pay for three years *plus* one-eleventh of the period spent on duty, of which not more than one year *plus* one-eleventh of the period spent on duty may actually consist of leave on average pay. Leave not due and carrying half average pay may be granted on medical certificate, and, within certain limits, for other reasons, but an officer will not again commence to earn leave until the expiration of a fresh period of duty sufficient to earn a credit of leave equal to the leave he has taken before it was due. After 28 months' absence from duty an officer draws quarter average salary, subject to certain maxima and minima.

3. Leave salary is ordinarily payable in rupees if the officer spends his leave in India or Ceylon, and in sterling if he spends it elsewhere. The rate of exchange for the conversion of leave salary is prescribed from time to time by the Secretary of State.

4. It should be noted that leave can never be claimed as of right, but is given or refused at the discretion of Government.

PENSIONS.

5. The following is a summary of the pension rules applicable to Engineers appointed to the Indian Services by the Secretary of State from the United Kingdom.

Ordinary Pensions.

6. An officer is entitled, on his resignation being accepted, to a retiring pension after completing qualifying service of not less than 20 years.

7. Retirement is ordinarily required at the age of 55 years, but for special reasons an officer is sometimes retained after attaining that age.

8. An officer becomes eligible for full retiring pension on completing 30 years qualifying service.

9. If before completing this period of service an officer is permitted to retire voluntarily after completion of 20 or more years' qualifying service (paragraph 6) or is compelled to retire on attaining the age of 55 (paragraph 7), he will be eligible for pension on the following scale :—

Completed years of qualifying service.	Maximum limit of pension.	Completed years of qualifying service.	Maximum limit of pension.
	Per annum.		Per annum.
	Rs.		Rs.
20	4,000	28	6,600
25	6,000	29	6,800
26	6,200	30	7,000
27	6,400		

10. Government may retire any officer after he has completed 25 years' service without giving reasons, and without any claim for compensation in addition to pension, and in that event the pension admissible to him will ordinarily be regulated on a scale not exceeding that laid down above. Government also reserves the general power to reduce the pension ordinarily admissible in all cases where an officer's service has been unsatisfactory.

11. An officer who is compelled to retire through ill-health not occasioned by irregular or intemperate habits will be eligible for invalid gratuity or pension as follows :—

(*a*) After a service of less than 7 years a gratuity not exceeding (except in special cases and under the orders of the Government of India, up to a maximum of 12 months' emoluments) one month's emoluments for each completed year of service. If the emoluments of the officer have been reduced during the last three years of his service, otherwise than as a penalty, average emoluments may, at the discretion of the authority which has power to sanction the gratuity, be substituted for emoluments.

(*b*) After a service of not less than 7 years, a pension not exceeding the following amounts :—

Completed years of qualifying service.	Scale of pension.	Maximum.	Completed years of qualifying service.	Scale of pension.	Maximum.
		Per annum.			Per annum.
		Rs.			Rs.
7	7 sixtieths of average emoluments.	2,000	19	19 sixtieths of average emoluments.	4,800

18	18 Ditto	4,600	30 and above	30 Ditto	7,000

Additional Pensions:

12. The Government of India have classified certain high appointments into two grades, the lower comprising those posts which involve high but intermediate responsibility, the higher consisting of those which require a marked degree of independent administrative and professional capacity. Officers who have held appointments listed in the lower grade will be entitled to an additional pension at the rate of Rs. 300 per year for each completed year of effective service in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 1,500 in respect of service classed in the lower grade. Officers who have held appointments listed in the upper grade will be entitled to an additional pension at the rate of Rs. 500 for each completed year of effective service rendered in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 2,500 in respect of service rendered in the lower and upper grades combined or in the upper grade alone.

13. These additional pensions will be awarded only to officers who have given proof of special energy and efficiency, and will be subject to the condition that an officer must not retire voluntarily before the age of 55 with less than 28 years' service.

The upper grade includes the Consulting Engineer to the Government of India and Chief Engineers of the Indian Service of Engineers.

The lower grade includes Superintending Engineers, Indian Service of Engineers, and the Deputy Secretary to the Government of India, Department of Industries and Labour, Public Works Branch.

PROVIDENT FUND.

14. A general Provident Fund, to which contribution is compulsory, has also been established on the following basis :—

(1) The contribution is compulsory up to 6¼ per cent. on salaries, with voluntary contributions of not more than a further 9⅜ per cent. Subscriptions on leave of any kind are optional.

(2) Compound interest on such payments in annually credited by Government to each officer subscribing.

(3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him unconditionally, on quitting the service ; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

APPENDIX V.

PASSAGE PAY.

(The arrangements herein described are subject to the provisions of the authorised text of the rules relating to the grant of Passage Pay.)

1. In addition to the pay prescribed in Appendix III, passage pay will be payable to every officer of non-Asiatic domicile at the rate of Rs. 50 per mensem or at such different rate as may from time to time be deemed sufficient by Government for the purpose of the provision of the benefits conferred by the rules. This addition will not be taken into account for the purpose of computing the leave salary of the officer. A sum equal to the amount received as passage pay will be deducted monthly from the officer's pay or leave salary, as the case may be, and credited to a General Passage Fund to be administered by Government.

2. The maximum benefits to which an officer will be entitled will be passages of a total value equal to the cost of the number of the passages between Bombay and London by P. and O., 1st Class B, shown below :—

(*a*) For the officer himself, four return passages.

(*b*) For his wife, the number of return passages shown in the following scale :—

(*c*) For each child, one single passage.

3. If an officer dies while in the service, his wife and children will be entitled to receive from the General Passage Fund single passages by sea from a port in India to a port outside India, but not exceeding in each case the cost of a single passage between Bombay and London by P. and O. steamer, 1st Class B.

4. Any balance remaining at the credit of an officer in the General Passage Fund after he has ceased to be eligible for the benefits conferred by the rules will lapse to the Fund.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. INDIA OFFICE, LONDON,

22nd April 1926.

ACCOUNTS,

No. 6.

To His Excellency the Right Honorable the Governor General of India in Council.

MY LORD,

Indian Civil Service Family Pension Rules: amendment of Rule 11 (3).

I have considered in Council your Secretary's letter in the Finance Department dated 24th February 1926, No. F.-12-III-F.E., asking whether the penalty payable under rule 11 (*3*) of the Indian Civil Service Family Pension Rules should be calculated on the disparity fine.

2. It has hitherto been the practice here as in India when penalties have been incurred by subscribers for delay in reporting marriages to levy the percentage increases on both marriage donations and disparity fines, and the rule as recast in its present form was intended to bear this interpretation. In order, however, to remove any doubt I have decided that the wording should be amended, and I enclose a Resolution I have made in Council effecting the necessary change in the Indian Civil Service Family Pension Rules.

3. I request that this Despatch with its enclosure may be published in the Gazette of India.

I have the honour to be,

MY LORD,

Your Lordship's most obedient humble Servant,

(Sd.) BIRKENHEAD.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

MEDICAL.

DARJEELING, THE 24TH MAY 1926.

RESOLUTION—No. 240T.—Medl.

The question of providing for the patients of the Government hospitals in Calcutta scales of diet which are at once adequate and economical has been engaging the attention of Government for some time past. The existing rates of daily diet allowance in the several hospitals in the city are not uniform, and the provision made for patients' diet is sometimes found to be inadequate, with the result that demands are made for increased grants.

2. Government are of opinion that before an additional grant to any institution for this purpose can be sanctioned, the whole question of diet in the Calcutta hospitals should be examined with reference to the nutritive value of the different articles of food and with a view to re-arrange the scales of diet upon a scientific basis. Hitherto the Superintendents of different hospitals have met on occasions to discuss the cost of diet in their respective hospitals, but not to consider the question of the dietetic value of food-stuffs. It is in the circumstances advisable to convene a committee of experts to consider what hospital diets are most suitable for the various classes of the community in Bengal, and to advise on any modification in the existing dietaries that may be found necessary. The report of such a committee would give Government definite data upon which to standardise the scales of ordinary diets in the different hospitals and would put Government in a better position to decide what sums, over and above the cost of the ordinary diet, are necessary to meet the charges for extra articles in special cases for which there is an insistent demand. It is presumed that this arrangement of diet scales on a scientific basis may ultimately lead to economy in expenditure.

3. The Government of Bengal have accordingly decided to appoint a committee consisting of the following members to consider the question :—

(1) Lieutenant-Colonel A. C. MacGilchrist, M.A., M.D., D.SC., M.R.C.P., I.M.S., Professor of Physiology, Medical College, Calcutta, *President*.

(2) Lieutenant-Colonel A. H. Proctor, D.S.O., M.D., F.R.C.S.E., Surgeon Superintendent, Presidency General Hospital.

(3) Major H. W. Acton, M.R.C.S., L.R.C.P., I.M.S., Professor of Tropical Pathology and Bacteriology, School of Tropical Medicine and Hygiene, Calcutta.

(4) Major R. N. Chopra, M.A., M.D., I.M.S., Professor of Pharmacology, School of Tropical Medicine and Hygiene, Calcutta.

(5) Dr. M. N. Banerjee, C.I.E., M.R.C.S.

The function of the committee will be to consider the following matters :—

(1) To examine the existing dietaries of the hospitals named below and to report on their dietetic value and adequacy from the therapeutic standpoint, and their suitability for the various classes of hospital patients :—

1. Medical College Hospitals.
2. Campbell Hospital.
3. Presidency General Hospital.
4. Sambhu Nath Pandit Hospital.
5. Voluntary Venereal Hospital.
6. Carmichael Hospital for Tropical Diseases.

(2) If the present dietaries are found to be inadequate or unsuitable, to make recommendations for their revision with regard to the special requirements of the various hospitals, and to suggest the scales upon which provision of diets should be made, and to estimate the daily cost of the scales of diets recommended.

(3) To enquire into the nature and suitability of the "extras" given at present to supplement the standard dietaries and to draw up a list and scales of "extras" which in the opinion of the committee are necessary for this purpose, and to estimate approximately the lump sum required for each hospital per mensem to meet the cost of "extras".

(4) To consider the different rates prevailing in the different Government hospitals of Calcutta for articles of diet of the same nature and to report how it would best be possible to secure uniform rates.

By order of the Governor in Council,

J. G. DRUMMOND,
Secretary to the Government of Bengal (offg.).

CALCUTTA, THE 5TH JUNE 1926.

RESOLUTION—No. 5721P.

It is only in recent years that the controversy about music before mosques has become important in Calcutta. This subject is now attracting a great deal of attention and in fact it was the immediate occasion of the disturbances in April 1926. On the 17th May His Excellency the Governor convened a conference of leaders and endeavoured unsuccessfully to arrive at a conclusion which would be acceptable to both the Hindu and Muhammadan communities. In dissolving the conference His Excellency expressed a hope that the two communities would after mutual discussion be able to agree and inform him of their agreement. This hope has not been fulfilled. In matters of religion Government maintain an attitude of strict neutrality and only intervene when the claims of one community clash with those of another, and when the persistence in mutually incompatible claims threatens to endanger public peace. Such a situation now exists, and it is necessary, therefore, for the Government of Bengal to announce with as much detail as the circumstances of the case permit, the nature of the orders which will hereafter be enforced in Calcutta in this respect.

2. The authority of the Commissioner of Police for regulating music at processions in Calcutta is derived from two sections of the Calcutta Police Act, 1866, viz., 62 and 62A, and there is a distinction between the nature of his powers under these two sections. Section 62 authorises the Commissioner of Police to make rules on the subject. These rules require the previous sanction of Government and they must be published for criticism before they are finally

issued. The general conditions which are prescribed in the printed license issued by the Commissioner of Police are in accordance with the terms of these statutory rules, and the conditions relating to the subject of music are as follows :—"All music shall cease in the neighbourhood of hospitals and all churches, mosques, temples or other places of worship during the time of public worship." The rules at present in force under section 62 were published by the Commissioner of Police in a notification. dated 2nd March 1922, with the previous sanction of Government and the conditions which appear on the license form for processions are embodied in these rules. They were published for public criticism in the gazette of 4th January 1922, and no objection or criticism was received. The occasion for republishing the rules in 1922 was a general revision and a consolidation of rules under section 62. At that time the rules relating to music at processions were not a subject of special consideration and in fact no alteration was made in the rules on this subject existing at the time, which had been similarly notified on the 31st December 1911 after approval by Government and after previous publication for criticism on the 18th October 1911. On that occasion also no criticism was received. In 1904 the Commissioner of Police had submitted rules containing the same condition about music with the remark that this and the other conditions had been entered in the licenses for many years but that it had been noticed that sanction of Government had not been obtained. In 1905 the conditions were sanctioned by Government.

3. The Commissioner of Police has further powers under section 62A. Under that section the Commissioner and, subject to his orders. every police officer of rank not inferior to that of Sub-Inspector, may give all such directions, either orally or in writing, as he may consider necessary for certain purposes which include the securing of the orderly conduct of persons constituting processions and the regulation and control of music. Two conditions are attached to the exercise of these powers They must be exercised with a view to securing the public safety or convenience, and the orders issued must not contravene any rule made under section 62 or the provisions of any license granted under such a rule. Therefore in no circumstances may the Commissioner or one of his subordinate officers permit the playing of music near a place of worship during the time of public worship because this would be in contravention of the condition in the license quoted above, but at all times they have the fullest discretion to impose any restriction with a view to securing the public safety and convenience.

4. It was arranged at the Conference on the 17th May that written statements regarding the personal experiences of those who are acquainted with this subject should be received and considered by Government. A large number of statements has been received, and they have been carefully considered. The Hindu community claim that music is an essential part of their religious observances and is therefore a necessary feature at all their religious processions. They have claimed the right and asserted the practice of playing music before mosques without hindrance at all hours of the day. The Muhammadan community consider that music disturbs the devotions of those who are at prayer in mosques, and they claim the right and assert the practice of the stoppage of music before mosques at all hours of the day, and not only on the occasions of public worship. There is, therefore, a definite conflict of statements as to the actual practice in the past, and it is clear to Government that this conflict is largely due to the fact that until very recently the subject has not attracted much attention in Calcutta and the two communities have generally been prepared to accommodate one another. These conditions no longer prevail and circumstances have arisen which make it necessary for Government in fulfilment of their responsibility for the preservation of the peace to arrange for a clearer definition of the instructions which will in future be observed by those conducting processions in Calcutta

5. The terms of the license will remain unaltered, but in order to prevent uncertainty, it will be necessary in all doubtful cases for the Commissioner of Police to ascertain and lay down for the guidance of those

conducting the procession what are the hours of public worship. Government interpret the words "public worship" as meaning "recognised congregational worship" and are not prepared to admit a claim which has been put forward that the time of public worship extends throughout the day. In the case of mosques the hours of the five recognised Muhammadan prayers will be specified. In other respects the Commissioner will, according to law, be guided by the requirements of the public peace and convenience with due regard to established practice in all cases. It has not been established to the satisfaction of Government that the general practice has gone beyond the terms of the license. At the same time the Commissioner of Police will retain the fullest discretion to secure compliance with such orders as he may give in accordance with the law. If, however, a particular procession exercises its privileges in a manner which is calculated to give offence, that procession and others will incur the risk of having privileges curtailed in future. On the other hand, Government do not intend that such restrictions as may be imposed on those conducting Hindu processions shall be extended on account of the demand made by Muhammadans for the imposition of further restrictions.

6. Government have given special consideration to the case of the Nakhoda mosque in Chitpore Road and have decided that in consequence of its size, importance and situation, an exception to the general rule will be made in the case of this mosque, and that all processions passing it at any time of the day will, when doing so, be required to stop their music.

7. These orders relate only to Calcutta: in other places different conditions have resulted in the establishment of different practices and such practices will not be modified as a result of these orders.

8. The existence of this dissension is a matter of serious concern to the Government of Bengal: it is in their opinion damaging to the reputation of the people of Calcutta for good citizenship, and it is the earnest wish of His Excellency in Council that at an early date the two communities will show greater readiness to meet one another's wishes and will thereby restore the amicable relations which until quite recently have subsisted between them.

ORDER.—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, for information.

Ordered also that the resolution be published in the *Calcutta Gazette* for general information.

By order of the Governor in Council,

L. BIRLEY,

Chief Secretary to the Government of Bengal.

The Division in which the applicant has passed should be stated. Particular care should be taken to give requisite details regarding arrangements for residence Unless residing with parents or *related* guardians Hindu students are expected to reside in the Eden Hindu Hostel and Muhammadan students in one of the recognised Muhammadan Hostels.

(3) Presidency College students who pass the Intermediate or Degree Examinations and desire readmission are required to submit applications in the *proper* form. If they fail to do so their prior claim to admission will not be recognised.

(4) Participation in Games or regular Physical exercise will be compulsory for those admitted into both First and Third Year Classes. Other things being equal, preference will be shown in making admission to those who have previously played in their school or college teams. Those who have been members of a team should state the fact in their applications.

(5) The rate of Tuition fees which has hitherto been Rs. 12 per month, with admission fee Rs. 10, is now under the consideration of Government and selected candidates will probably be charged higher fees from the session 1926-27. On the other hand the number of partial freeships available for deserving students who are unable to meet the full fees, is likely to be correspondingly increased.

NOTIFICATION.

No. 1841L., dated the 7th June 1926.—The following Report of the Select Committee on the Calcutta Municipal (Amendment) Bill, 1926, with the Bill, as amended by the Committee, is hereby published for general information :—

Report of the Select Committee on the Calcutta Municipal (Amendment) Bill, 1926.

We, the members of the Select Committee appointed to consider the Bill further to amend the Calcutta Municipal Act, 1923, for the purpose of enabling the Corporation constituted under the said Act to take proceedings in respect of the breaches of the building regulations committed before the Act came into force, have the honour to submit this, our Report, with the Bill, as amended by us, annexed hereto. In printing the Bill all changes made by us have, so far as possible, been underlined.

2. The changes we have made in the Bill are as follows :—

Clause 1.—The figures " 1925 " have been changed to " 1926 ". The amendment is a formal one.

Clause 2.—(*a*) The proviso to sub-section (*1*) of proposed section 557A has been omitted from here and consolidated with sub-section (*5*) below.

(*b*) Sub-section (*4*) of proposed section 557A has been omitted. The majority of us are against the retention of this sub-section on the ground that the revival of suits finally disposed of on the basis of the High Court judgment in the case of Ramgopal Goenka *vs.* Corporation of Calcutta would be resented by the parties concerned as unfair to them.

(*c*) Sub-section (*5*) of proposed section 557A has been slightly modified. From the point of view of drafting the subject matter of this sub-section has been consolidated with that of the proviso to sub-section (*1*). We are also of opinion that the period of six months is too short and that it should be made one year.

3. The Bill was published in the *Calcutta Gazette* of the 11th February, 1926.

4. We do not consider that the Bill has been so altered as to require re-publication.

5. We recommend that the Bill, as amended by us, be passed.

N B—The signatures of Moulvi Abdur Raschid Khan and Mr H. S Suhrawardy had not been received up to the time of printing the report.

Minute of Dissent by Babu D. P. Khaitan.

I do not think sub-section (*4*) of proposed section 557A should have been omitted. Such omission may give undue advantage to some persons who took advantage of a technical point of procedure and not of substance. If proceedings cannot be taken against them their neighbours suffer permanently, besides the houses concerned continue to remain insanitary.

Minute of Dissent by Mr. J. N. Basu.

I have signed the Report of the Select Committee subject to the following note :—

" Sub-section (*4*) of proposed section 557A in clause 2 should be deleted not because the revival of suits thereunder would be resented by the parties concerned but because it is not usual in legislation containing punitive provisions to authorise the retrial of a person on a charge for which he has already been tried and on which he has been acquitted, although such acquittal has been due to the fact that the Legislature had not prior to the trial vested the courts with sufficient authority for a conviction. "

Minute of Dissent by Mr. A. C. Banerjee.

I sign the above report with the following reservation :—

In paragraph 2 (*b*) of the Report the words " resented by the parties concerned as " be omitted.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Police Branch.

The following extracts from the report of the Commissioner of Police, Calcutta, on the first period of the Calcutta riots from the 2nd to 15th April 1926 are published for information.

L. BIRLEY,

Chief Secretary to the Government of Bengal.

REPORT ON THE CALCUTTA RIOTS OF APRIL 1926.

First Phase—2nd to 15th April.

Preamble.—Communal rioting between Hindus and Muhammadans broke out suddenly on the 2nd April and continued for several days, on a scale which is unprecedented in the history of Calcutta.

The immediate cause of the rioting was the failure of the band of an Arya Samaj procession to cease playing their instruments when passing Dinu Chamrawalla's mosque, in Harrison Road, at the time of the *Azan* or "invitation to prayer," preparatory to the four o'clock public worship, but it is unreasonable to suppose that this small incident could possibly have been the sole cause of such extensive riots as those which followed. On the contrary, there can be no doubt that this was purely the occasion and that the cause must be sought in more remote circumstances.

To appreciate what follows, it needs to be stated at the outset that the first collision took place between up-country Hindus and Muhammadans and that by far the greater portion of the rioting and attendant crime has been confined to this section of the population of Calcutta.

* * * * * *

Outbreak of Riots.—As has been stated, the immediate cause of the outbreak was the playing of instruments in front of the Dinu Chamrawalla's mosque by the Arya Samaj procession. The passing of the mosque at the junction of Harrison Road and Central Avenue had been successfully negotiated; music had been stopped without difficulty and the procession passed in safety. They arrived at the Dinu Chamrawalla's mosque, however, at the time when the *muezzin* was about to pronounce the *Azan*—the invitation to Muhammadans to join in prayer—and silence on the part of the band was again invoked. This time, however, the direction was not immediately obeyed and the musicians continued to play their instruments. Some Muhammadans then came out from the mosque and remonstrated with the processionists, and ultimately the Police Inspector in charge, with the assistance of the leaders of the procession, succeeded in stopping the music. One drummer, however, continued obstinately to beat his drum and, by so doing, supplied the spark to set off the powder train which the events of the past few years had combined to prepare.

Narrative of important events—April 2nd.—From this stage onwards, it is difficult to speak with certainty as to the exact sequence of events, but the following narrative of the more important events has been carefully compiled from the statements of two European eye-witnesses of the outbreak and from a series of reports from unconnected sources and it may, therefore, be accepted as a record which approximates as closely to the actual sequence of events as any human record of events happening in such quick succession could possibly do.

It seems clear, then, that the first militant act was committed by some Muhammadans in front of the mosque, who threw some clods of earth which they took from the road, and they were followed almost immediately by another Muhammadan who threw an empty packing case at the procession. At this the processionists broke loose; the neighbouring shops and buildings were looted and brickbats and soda-water bottles were hurled at the mosque, smashing some of the window-panes and glass ornaments. They attacked the Muhammadans standing near the mosque and freely belaboured them with *lathis* and stones. The Muhammadans were then joined by a large number of their co-religionists living in the locality, who poured into Harrison Road from the by-lanes. In the initial stages of the rioting, two cart-loads of new bricks arrived on the scene—apparently destined for some building under construction—and the combatants on both sides helped themselves freely to the contents. There appear, however, to have been other stores of ammunition in the vicinity, and it is alleged that bricks were thrown from the roof of the house adjoining that occupied by Babu Madan Mohan Barman—a prominent figure in the Hindu Mahasabha—by men who subsequently ran on to the roof of the latter's house. Finding the situation entirely beyond his control, the Inspector in charge of the procession hastened at once to Jorasanko police-station, from where he telephoned to the police headquarters at Lall Bazar and mobilised the police-station staff, numbering about twenty-five constables, with whom he returned to the scene of the riot.

The battle raged furiously for some minutes, but the Muhammadans, who were now numerically superior to their opponents, put the processionists to headlong flight and thereafter remained in control of the street. Trams and buses were stopped and the Hindu occupants were freely belaboured. Hindu pedestrians were also seized and beaten and the situation became so grave that in a very short time the shops were closed and all the vehicular traffic was suspended.

A strong contingent of police consisting of sergeants and constables of the traffic police then arrived in charge of Mr. F. D. Bartley, Deputy Commissioner, Headquarters, and all rioting in the immediate vicinity was quickly put down. In the process, however, Mr. Bartley was struck on the eye by a brickbat and a sergeant who was near him was also injured, while a Gurkha constable who endeavoured to protect Mr. Bartley was stabbed from behind and seriously wounded. Piquets were posted on all important crossings and other strategic points and the situation was brought under control.

Sporadic rioting continued, however, in the side streets and by-lanes until midnight, and individual Muhammadans and Hindus were waylaid and assaulted by members of the opposite communities.

Shortly after the arrival of Mr. Bartley, it was noticed by the Inspector of the Jorasanko police-station that the Hindu temple in Mandir Street, and the idol of Siva contained therein, had been damaged. This outrage appears to have been committed by local Muhammadans, who raided the temple, assaulted the Oriya servant who was present there, broke the image of Siva with stones and iron weights and took away all the movable articles inside the temple, as a measure of revenge for the damage inflicted on the Dinu Chamrawalla's mosque.

In the meantime, the news of the riot had spread to other parts of Calcutta and sympathetic rioting arose. At about 7 A.M. a disturbance took place behind Madan's Theatre in Corporation Street and there was considerable excitement in the New Market. At about 8 P.M. the dead body of an unknown man was forcibly pushed into a tram-car on Lower Chitpur Road near Tara Chand Dutt Street and a sweetmeat shop was looted in Phear's Lane. At 10-30 P.M. a large mob armed with *lathis*, including a number of Khilafat volunteers, passed along Central Avenue towards Zakaria Street and subsequently proceeded along Harrison Road towards Chitpur Road, but, although their attitude was menacing, no actual collision took place and at a suitable opportunity they were intercepted and disarmed. At 11-20 P.M., a Hindu boarding-house at No. 36, Central Avenue, was attacked by a mob armed with brickbats, and a *bania's* shop was looted. During the course of the day, a constable of the Howrah Armed Police, in plain clothing, was stabbed by a Muhammadan near Howrah Bridge.

* * * * * *

April 3rd.—After a comparatively quiet night, rioting again broke out at 8 A.M. on the 3rd April, at the junction of Harrison Road and College Street, at Rajabazar and near Sealdah Railway Station—the reason for the renewal of hostilities being that a party of Hindus, including a few Sikhs, on hearing a rumour to the effect that the Sikh Gurudwara in Mechuabazar had been set on fire, attacked and damaged the Jumma Pir Dargah in Clive Street. This thoroughly enraged the Muhammadan population, who proceeded immediately to take revenge for this outrage. They threatened the Pareshnath Temple in Badri Das Temple Street and set fire to the Shiva Temple in Mandir Street, which they had damaged on the preceding day. Thereafter, they set fire to a number of Marwaris' and Hindus' houses. On Circular Road, a crowd of Muhammadans, who had collected near the Tram Depôt, stopped a motor bus and assaulted the up-country conductor. A Bengali passenger, who came to the latter's assistance, fired a revolver which slightly wounded another passenger, but, nevertheless, had the desired effect of scaring away the mob. A Sikh driver of an Improvement Trust lorry was also dragged from his conveyance and beaten with *lathis* and stabbed. At about 9-30 A.M., a posse of police from Jorasanko police-station were heavily stoned by a crowd of Muhammadans, who refused to disperse when ordered to do so, and a constable was somewhat seriously wounded. Shortly after this, a Hindu constable was stabbed at the junction of Harrison Road and Chitpur Road and an unknown Muhammadan was attacked and stabbed by a Hindu mob at the junction of Mullick Street and Cotton Street. Both these men died shortly after their admission into hospital. Two determined attacks were made by the Muhammadans on the Kali Temple at Kalitola, but they were repulsed by a large band of Bengali youths, (most of whom were students), who had armed themselves with sticks and *lathis* in order to repulse attacks of this nature. At about 11 A.M., a crowd of Muhammadans broke into the Sikh Temple in Mechuabazar Street and the Sikh Gurudwara in Syed Sally Lane, looted the gold and silver idols and other movable property inside the temples, destroyed the religious books, including a copy of the *Granth Saheb*, and set fire to the buildings. They also looted and set on fire the Sikh cloth-shops

on the ground floor of the Gurudwara in Syed Sally Lane. Information of this incident was conveyed by the Sikhs to a Police piquet stationed in Harrison Road, who immediately rushed to the spot and dispersed the mob. The fires were quickly extinguished by the Fire Brigade, but the temple in Mechuabazar Street was again set on fire by the Muhammadans and ultimately had to be guarded by Police. The news of these outrages roused the Sikh community, who live chiefly in Bhowanipur, and it was only with the greatest difficulty that they were restrained by the Police from participating in the rioting. A large party of Sikhs, numbering about 400, succeeded in reaching the scene of the first outrage, but their participation in the hostilities was avoided by placing some of them inside the temple and sending the remainder back to their homes.

From 10 A.M. onwards, the situation became increasingly grave and, as all the reserves of Police had, by this time, been exhausted, it was decided at about noon to requisition the aid of the Military authorities. A detachment of infantry and two armoured cars were posted on the streets and another detachment was held in reserve for use in emergencies.

At about midday, a mob of Muhammadans entered the Sikh Gurudwara at No. 9, Bagmari Road, and damaged and desecrated the temple. At about 1 P.M., a large number of Muhammadans invaded the Presidency College grounds and assaulted the Hindu *durwans*. Three of them were seriously wounded and one of them, the head *durwan*, was so badly wounded that he died in hospital the next day. Shortly after this, a large crowd of about 500 Muhammadans attacked the "Sukumar Bhaban," a Sanskrit School in Baitakhana Road, and drove out the inmates, who escaped over the compound wall. The mob then proceeded to loot and damage the property. At about 2-30 P.M., two Marwaris were stabbed at the junction of Circular Road and Mechuabazar Street, and both subsequently died. Immediately after this incident, a postal mail-van was attacked in Mechuabazar Street by a mob of about 200 Muhammadans, who stopped the van by placing a dust-bin in front of it and stabbed the Sikh driver so seriously that he died the next day. The Police piquets posted near the spot attempted to intervene, but they were powerless to control the mob, who then proceeded to break open the van with the object of looting the contents. Fortunately a section of the Fire Brigade arrived at this juncture and were able to rescue the mails.

At about 3 P.M., a curious incident occurred; between two and three thousand Muhammadans had collected in front of the Nakhoda Masjid and a lorry containing a number of Muhammadans, who had been rescued from a Hindu quarter by a party of Police and were being escorted thither for safety, arrived there. Immediately after the rescued persons had descended from the lorry, three shots were suddenly fired at the Police from the Musafirkhana at No. 110, Lower Chitpur Road, and a Hindu constable was mortally wounded and died that evening. No clue regarding the identity of the perpetrator of the outrage has yet been obtained and none is expected, and this incident will remain an act of gross treachery which is entirely inexplicable.

At about 4-30 P.M. a Muhammadan was attacked by a Hindu mob on Harrison Road and his left hand was chopped off.

Throughout the day, looting, incendiarism and murder occurred freely, whenever the rioters were out of sight of the Police or Military piquets, and no less than nine other persons were killed during the course of the day, in addition to those mentioned in the foregoing narrative.

By 4 P.M., the situation was more under control and, although the atmosphere was very electric, outbreaks of rioting became fewer in number. A general and continuous panic prevailed in the disturbed area, however; wild rumours abounded, frequent alarms occurred and these combined to produce a situation, in which anything might happen without the slightest warning and which taxed all the efforts of the Police to keep it under control.

* * * * * *

During the evening, about 150 up-country Hindus attacked the Sona Pir Dargah at Durga Charan Mitter Street, but, before they could effect any appreciable damage, the police arrived on the scene and dispersed the rioters. The only other important event during the evening was the murder of a Hindu in front of the Y.M.C.A. building in College Street.

April 4th.—At 1-30 P.M. on the 4th, an alarm was raised that the mosque in Wellington Square was being attacked, and a number of Muhammadans immediately hastened towards the spot. Mr. B. N. Banerji, Assistant Commissioner, South District, relying on his influence with the Muhammadans of the locality, by whom he is generally respected, attempted to induce these persons to return to their homes, but the latter paid no heed to him, assaulted him and knocked him down. Fortunately, a party of Police arrived on the scene and rescued the Assistant Commissioner.

Some of the rioters were chased into neighbouring shops and allegations of looting on the part of these constables were subsequently made to the Commissioner. A search was immediately instituted by the Deputy Commissioner, South District, and it is a regrettable fact that certain articles belonging to the shops were found in and immediately outside the building occupied by the constables attached to the Taltolla police-station. The property was not found in the exclusive possession of any one of the constables and the latter's version is that the articles had been left there until the officer-in-charge should find time to take charge of them. There is no doubt that the charge of looting is true, and four constables have been dismissed.

At about 8 A.M., rioting broke out at Jagannath Ghât between Muhammadan and Hindu carters, until the latter were dispersed by the Police. The boatmen in that locality also took part in the disturbance and a Hindu was stabbed while he was bathing at the ghât. At about 11 A.M., the Jain temple at Belgachia was attacked by the Muhammadans, but the Police were quickly on the scene and dispersed the rioters. Shortly afterwards, a Muhammadan was mortally wounded by a Hindu mob in Shibtolla Street, who also stole a double-barrelled gun belonging to another Muhammadan resident of that locality. During the course of the morning, the mosque in Nimtolla Street was attacked by a Hindu mob, who damaged the building and set it on fire, and, shortly afterwards, a mosque at Posta in Strand Road was attacked by Hindus and damaged. A posse of Police were quickly despatched and they quelled the disturbance, but, in doing so, two Hindu constables were injured. At about 1-30 P.M., a riot broke out in Rajabazar and, in the process of dispersing the mob, three other constables were wounded. At about the same time, a serious riot broke out in Eden Hospital Road between Hindus and Muhammadans and brickbats were freely exchanged. The Shiva temple in that neighbourhood and the Shitalamoni temple in Prem Chand Boral Street were threatened and the mosque in the compound of the Medical College was attacked by a Hindu mob, but no harm was done in any case. A strong Police force quickly arrived on the scene and dispersed the crowds. At 6 P.M., the Nimtolla mosque was again attacked and set on fire, but the fire was extinguished and the rioters dispersed before much damage could be done. At about 8 P.M., a large crowd of Muhammadans were again going to attack the Jain temple at Belgachia, but the Police received previous intimation of their intention and a large force was despatched in time to baffle their attempt. At about the same time, a crowd of 300 or 400 low class Hindus demonstrated in front of a house in Maniktolla Street, which was partly occupied by Muhammadan tenants and in which some Muhammadan refugees from shops looted in the vicinity had taken sanctuary. The Hindu proprietor of the house directed the mob to disperse and threatened them with a rifle. As they paid no heed to his commands, he fired three blank shots, but this only served to infuriate the mob, who made a determined attack on the house. The proprietor then fired eight ball cartridges from his rifle with the result that four persons were injured, one of whom was seriously wounded.

During the course of the day, two Muhammadans and three Hindus were killed or received mortal injuries, and a large number of shops were looted. A *majhar* at the junction of Upper Chitpur Road and Baranashi Ghosh Street was entirely razed to the ground and a Hindu Shiva was placed on the site, but this was subsequently removed at the instance of certain influential Hindus of the locality.

A state of panic prevailed throughout the disturbed area to an even greater degree than on the previous day. Wild rumours flew from mouth to mouth, frequent alarms occurred and business was entirely suspended. Very few people were seen on the streets and all attempts by leaders of communities to restrain their followers still failed to have the slightest effect.

On this date, the Chief Presidency Magistrate issued an order under section 144, Cr. P. C., prohibiting the assembly of more than five persons in any part of the disturbed area, and this order was enforced with

effect from 5 P.M. This had a very beneficial effect and removed from the streets the large crowds which had previously collected there and had been productive of so much trouble, but individual cases of assault and disturbances in by-lanes still continued.

During the following night, a small temple of Radha Kissen in Watgunge Street was secretly desecrated by Muhammadan *goondas* and this was responsible for a good deal of feeling in the Kidderpore neighbourhood on the following day.

April 5th.—On the 5th April, the rioting extended to the riverside. At about 7-30 A.M., some Hindu carters assaulted a number of Muhammadan boatmen at Nimtolla Ghat and at about 10 A.M., some Hindu *durwans* of Messrs. Marshall & Son assaulted some Muhammadan crane drivers employed in the Port Commissioners' Jetty. At about 11 A.M. on this date, about 2,000 Muhammadans, armed with *lathis* and brickbats, assembled at the junction of Maniktolla and Narkeldanga Main Road and declared that the Police should be attacked, as they were guarding Hindu temples and generally assisting the Hindu combatants. Brickbats were thrown at Inspector J. N. Roy and some constables, four of whom were injured, but a force of soldiers arrived almost immediately under the command of the Assistant Commissioner, North Suburbs, and the crowd dispersed. At about 5 P.M. some five hundred Muhammadan boatmen from boats moored near Babu Ghat attacked the police outpost in the Eden Gardens with *lathis* and brickbats and, having driven the staff from the building, proceeded to loot the contents. Information was immediately sent to Lall Bazar and a small contingent of Auxiliaries and Police Sergeants soon arrived on the scene in charge of Mr. F. D. Bartley, Deputy Commissioner, Headquarters. The rioters put up a determined opposition to the efforts of the newly-arrived patrol to disperse them and the patrol were heavily stoned, but they ultimately succeeded in driving the crowd down the gangway on to the pontoon. On this the rioters took up their stand and continued to shout defiance and to hurl stones at the patrol, whom they repeatedly tried to rush. The patrol thereupon fired and succeeded in dispersing the rioters by this means.

In the disturbed area, the full effect of the Chief Presidency Magistrate's order under section 144, Cr. P. C., began to be appreciated on this date and the day was comparatively uneventful. Some brickbats were thrown into the Taltolla police-station and some Muhammadans with a herd of cattle were attacked by Hindu rioters on the Strand Road. Sporadic looting and assaults continued, however, and the panic remained undiminished. As a consequence of this, the day was full of false alarms and this fact was not conducive to a speedy return to normality.

April 6th.—On the 6th April, a number of incidents occurred, which might easily have developed into very serious situations, but fortunately the Police were, in most instances, on hand in time to prevent serious rioting. Thus, considerable tension arose in Kidderpore, where some Muhammadans threw stones at the Hindu temple in Watgunge Street, which had been desecrated on the previous day, and a number of members of both communities prepared to fight, but the Police arrived before hostilities commenced and dispersed the crowds. Shortly afterwards, a large number of Muhammadans, armed with *lathis*, collected near the mosque in Michael Dutt Street, declaring that bricks had been thrown at the mosque from Hem Chandra Street, but they were quickly dispersed by the Police. Thereafter, a horn or conch-shell was blown from the Panchanantola temple and Hindus of the locality immediately collected there, out of fear that the temple was about to be desecrated. Muhammadans also arrived in large numbers and both parties were armed with *lathis*, but the Police were able to disperse the crowd after a brief exchange of brickbats. Again, at about 9 P.M., some 200 Muhammadans attacked the Shiva temple at the junction of Amherst Street and Sitaram Ghosh Street with brickbats and soda-water bottles, but a contingent of soldiers and Police were immediately despatched to the spot and the mob was dispersed.

At 11-15 P.M., there was a disturbance in Nikasipara in North Calcutta, because the local Muhammadans feared that a body of Hindus were about to attack the Nikasipara mosque, while the Hindus had collected on receipt of a false rumour that the Muhammadans were about to loot their shops. The Police were immediately on the scene and the mobs were reassured and dispersed.

In two cases, more serious offences were committed. A party of Hindus attacked the mosque in Armenian Street with brickbats, but the disturbance ceased immediately on the arrival of the Police, and a Peshwari beggar was stabbed and killed in Harrison Road by some unknown Hindus.

April 7th.—On the 7th April, there was a further decrease in open rioting. Some stones were again thrown at the desecrated temple in Watgunge Street, but further troubles was averted by the Police. A Muhammadan was found dead on Baranashi Ghosh Street, and another Muhammadan was stabbed at Posta by a party of Hindus and died in hospital the same day.

April 8th.—On the 8th April, the situation had still further improved and the only event of importance was the murder of a Muhammadan in Upper Chitpur Road by a party of Hindus.

April 9th to 14th.—On the 9th, one Muhammadan was wounded; on the 10th one Hindu and one Muhammadan; the 11th passed without any reported casualty; on the 12th two Hindus and one Muhammadan were wounded.

Thus ended the sporadic rioting which attended the later stages of the communal strife which began on Good Friday, the 2nd April. The *Id-ul-Fitr* on the 14th passed off peacefully and most of the troops were withdrawn that evening. The 15th was also without incident and the complete withdrawal of the troops from the streets late that afternoon may be said to mark the conclusion of the first phase of the riots.

It is to be observed that the foregoing narrative is by no means an exhaustive account of the innumerable incidents which occurred during the course of the riots in the various parts of Calcutta. It would be impossible to give a full list of such incidents in the sequence in which they occurred, and the narrative has therefore been confined to a recital of events which serve to convey some appreciation of the course and the character of the riots.

Measures taken to quell the riots.—Information regarding the outbreak of the riots was received by telephone at Lall Bazar at 3-50 P.M. on the 2nd April (Good Friday), and the Armed Police were immediately ordered to stand by. A patrol consisting of 20 Sergeants and 20 Constables from the Reserve Traffic Police under the command of Mr. F. D. Bartley, Deputy Commissioner of Police, Headquarters, was despatched at once to the scene of the outbreak and they were followed very shortly afterwards by another patrol consisting of 1 Inspector and 10 Constables of the Traffic Police. These patrols proceeded at once to quell the original riot and they were reinforced at about 4-30 P.M., by 2 Non-Commissioned Officers and 20 Sepoys of the Armed Police, with whose assistance they were enabled to bring the situation under control. By these means all open rioting was stopped for the time being, but sporadic disturbances then broke out in the side streets and by-lanes, and a force consisting of 4 Sergeants and 30 Constables of the Mounted Police was therefore. despatched at 5-30 P.M. for patrol duty. At about 7 P.M. the rioting began to extend beyond the scene of the first outbreak to other quarters of the town, and all Traffic Police were therefore withdrawn from posts in the city and were held in reserve at Lall Bazar. As the disturbances still continued, at 9 P.M. a force of 40 Constables of the Traffic Police and 10 Sepoys of the Armed Police were despatched to the disturbed area, and at 9-30 P.M. another force, consisting of 24 Sergeants, 7 Head Constables and 70 Constables of the Traffic Police, went out under the command of the the Assistant Commissioner of Police, Headquarters. In addition to the above, a number of small patrols were from time to time despatched to various parts of the disturbed area, on receipt of telephone messages to the effect that disturbances were taking or about to take place.

At about 10-30 P.M., the situation was comparatively quiet and the majority of the Police were therefore withdrawn leaving a force of 10 Sergeants and 20 Sepoys of the Armed Police and 2 Sergeants and 15 Constables of the Mounted Police to assist the district police in the disturbed area throughout the night.

At about 8 A.M. on the following day, the 3rd April, rioting again broke out, and during the course of the next two hours a total force of about 150 Police was despatched to reinforce the piquets in the disturbed area. By 10 A.M., general rioting was taking place over a large area and, as the Police piquets were insufficiently mobile, five motor lorries were hired for the purpose of conveying patrols quickly to the places

where they were required, and each of these was equipped with a force of 4 Sergeants, 5 Sepoys of the Armed Police and 10 Constables of the Traffic Police. Two of these motor patrols and four motor-cycle patrols, each consisting of 3 Sergeants in a motor-cycle and side-car, patrolled continuously throughout the disturbed area, while three motor patrols and two motor-cycle patrols were held in reserve at Lall Bazar for despatch to danger spots on receipt of requisitions by telephone. All possible reserves at the disposal of the Police, including a force of 100 recruits and constables undergoing refresher course at the Police Training College were pressed into service in connection with the riots. By this time, some five to six hundred police were concentrated in the main disturbed area of the North Town and this arrangement continued till the rioting had subsided. The district police in other quarters of the town and suburbs were standing by to deal with sympathetic outbreaks in their jurisdictions and were reinforced from Headquarters where necessary, while all reserves were held in readiness at Lall Bazar.

It soon became manifest, however, that these forces were insufficient and, at about noon, it was found necessary to requisition military assistance. This was readily given and a force of 350 officers and men of the North Staffordshire Regiment, and four armoured cars, manned by crews provided by the Calcutta Presidency Battalion, were placed at the disposal of the Police. In addition, a light Motor Patrol, consisting of about twenty men with two Lewis guns, was provided by the Calcutta Presidency Battalion and a Lewis gun patrol was obtained from the Calcutta Scottish.

On the 4th April, a contingent of one hundred men of the Eastern Frontier Rifles, under the command of Captain L. Y. Bazett, was received from Chinsura, and twenty Armed Police were lent by the Superintendent of Police, 24-Parganas. This force continued to be employed throughout the period of the riots and, on the 6th April, a further reinforcement of 200 men was obtained from the Eastern Frontier Rifles at Dacca.

With these reinforcements, it was possible to establish a network of patrols throughout the affected area. Military piquets were stationed at all strategic points throughout the day and night and these were maintained at sufficient strength to furnish constant patrols radiating from the fixed posts and linking up with the neighbouring piquets.

Unarmed parties were sent out regularly from Lall Bazar and from police-stations to patrol both the main streets and every side street where trouble had occurred, and a number of reconnoitring parties patrolled all the threatening areas throughout the day and night.

The remaining military forces were held in readiness at Lall Bazar, where information of almost all alarms was received by telephone. As necessity arose, they were sent out in flying patrols, under officers from Police Headquarters, to the places from where the alarms were reported. In these cases, they dealt with the situation as they found it on arrival and, when peace had been restored, they returned to Lall Bazar after making local arrangements to prevent any fresh alarm or outbreak of rioting.

From the morning of the 3rd April, there were few collisions between large bodies of the two contending parties, and the great majority of the disturbances were entirely sporadic in character; they subsided as suddenly as they arose, and the difficulties of dealing with the belligerents were greatly enhanced owing to the excellent cover afforded to them by the labyrinth of small lanes and gulleys which characterize that portion of the city. The particular feature of this warfare which was most difficult to control was the stabbing of individuals by small roving bands of the opposite community, who pounced on their victims without the slightest warning and vanished in a moment. As the assailants in each case immediately sought shelter amongst their co-religionists, it was impossible for a patrol arriving even within a few moments of the occurrence to ascertain whither they had gone or to obtain the slightest clue to their identity. It has been freely suggested that firing should have been resorted to more frequently by the Police, but the foregoing description will serve to show that this suggestion utterly ignores the realities of the situation. The most that could possibly be done was to keep flying patrols continuously operating in the affected area and to search for bad characters and lethal weapons in the gulleys down which the assailants had disappeared.

Throughout the riots, members of the public have frequently complained that fixed piquets did not rush to their assistance when they raised an alarm, but this criticism too is equally uninformed and ignores the many other considerations that determined the conduct of these piquets.

As has been stated elsewhere, the first phase of the riots may be said to have closed with the celebration of the *Id* festival on the 14th April on which day the greater portion of the troops were withdrawn; the remainder were withdrawn on the following day and on the 16th April the detachments of the Eastern Frontier Rifles were permitted to return to their respective stations.

Effect of military forces.—The reinforcement of the Police by military units had a very beneficial effect on the situation. The appearance of British troops on the streets, and particularly of the armoured cars, provided a grim and effective warning to the rioters, which went far from being unheeded, and on innumerable occasions their presence alone was sufficient to disperse menacing crowds.

In addition, however, to their moral effect and to their undoubted effectiveness in quelling actual riots, the mobility of the armoured cars made them of special value to outlying unarmed piquets, with whom they were constantly in touch, and they also formed a valuable reconnoitring unit.

Throughout the first phase of the riots, the armoured cars did excellent work and their utility in dealing with street riots in a town like Calcutta cannot be over-estimated. The type of car at present used is possibly a little cumbersome and not adapted for narrow streets, but it is of immense use in the broader thoroughfares.

The greatest effect of the military forces was, however, achieved during the process of re-establishing normal conditions in the affected area, and there can be little doubt that the return to comparative normality would not have been achieved within so short a period without the feeling of security which was induced by their presence on the streets.

Communities participating in the riots.—In the first instance, the rioting was confined to the two communities who first came into conflict, namely, the Muhammadans and the Arya Samajists, but the conflict became almost immediately a struggle between Muhammadans and up-country Hindus. This state of affairs continued until 10 A.M. on the 3rd April, when the Kali temple at Kalitola was attacked by Muhammadans. This outrage thoroughly roused the Bengali Hindus, who had hitherto taken no part in the struggle and against whom the Muhammadans had displayed no animosity whatsoever, and they took up the cause of their up-country co-religionists. Their part in the struggle was, however, confined almost entirely to the defence of their religious institutions and in only a few instances did they participate in any retaliatory measures.

Casualties among the public.—So far as can be ascertained, the total number of casualties resulting from the rioting which took place between the 2nd and the 12th April was 44 deaths and 584 injuries sufficiently serious to warrant admittance into hospital. Of the dead persons, twelve were killed outright, while the remainder died in hospital, and they include 24 Hindus, 19 Muhammadans, and 1 person of doubtful nationality.

The persons admitted to hospital consisted of 327 Hindus, 238 Muhammadans, 1 Anglo-Indian, 2 Jews, and 16 persons whose nationality is not known.

Appended is a statement of the casualties, giving the dates on which they occurred:—

Date.	Injured.	Deaths.
2-4-26	171	
3-4-26	195	
4-4-26	134	28
5-4-26	41	
6-4-26	17	5
7-4-26	15	4
8-4-26	9	3
9-4-26	1	..
10-4-26	2	..
12-4-26	3	..
	588	40
	– 4 died subsequently	4
Total	584	44

It would be unsafe, however, to assume that these figures represent the total casualties resulting from the riots, since a number of dead bodies may have been thrown into the Ganges, a considerable number of injured persons were undoubtedly treated at their homes, instead of being sent to hospital, and a large number of persons were dressed and discharged at the hospitals without any record being kept of their cases.

Police casualties.—The total number of Police casualties amounted to 2 deaths and 91 injuries. The injured persons included Mr. F. D. Bartley, Deputy Commissioner, Headquarters, Mr. B. N. Banerji, Assistant Commissioner, South District, 1 Inspector, 21 Sergeants, 4 Head Constables, 60 Constables and 3 Sowars.

Arrests.—The total number of persons arrested in connection with the first phase of the riots is 500, of whom 327 are Muhammadans and 173 Hindus. This figure bears no relation to the number of persons engaged in the riots nor to the number of offences committed, but the difficulties in the way of securing evidence against the rioters are obvious and require no comment. Of the persons arrested, 153 were released on personal recognizance to appear on the 30th April for discharge. 347 persons have been sent up for trial and details of the sections of law under which they will be prosecuted are given below —

Sent up for trial under sections 302, I.P.C. (9 accused in one case and 1 accused in another)—10.

Sent up for trial under sections 147 and 148, I.P.C.—203.

Sent for trial under sections 457/380, I.P.C.—8.

Sent up for trial under section 454, I.P.C.—9.

Sent up for trial for minor offences, *i.e.*, sections 29, 54A and 68 of the Calcutta Police Act—117.

Looting.—Throughout the period of the riots, looting of shops was freely resorted to by members of both communities. In many cases, the object was purely to cause damage to a member of the opposing community, but, in many other cases, the motive was plunder by the unruly element of the population, who took prompt advantage of the unsettled conditions in that quarter. The total number of shops looted amounted to 197, of which 106 belonged to Muhammadans and the remaining 91 to Hindus. It has not yet been possible to arrive at even an approximately accurate estimate of the total loss sustained and enquiries in this connection are still being made. While many persons have omitted to give information to the Police regarding the looting of their shops, others have greatly exaggerated their losses and, in these circumstances, it would be unsafe and misleading to offer any estimate without further investigation.

* * * * * *

Goondas.—An important feature of the riots was the vigorous participation therein by the *goonda* element of the population, who speedily realised the opportunities for looting and violent crime which were offered by the conditions then prevailing and proceeded to take full advantage of these opportunities.

* * * * * *

Attacks on religious institutions.—The most remarkable feature of the riots was the number of religious institutions attacked by members of the opposing communities, and this may be taken as symptomatic of the great animosity existing between the followers of the rival religions. Attacks on Hindu temples have always been a feature of Indian history, although their frequency has decreased very considerably since the British occupation, but they have never occurred in Calcutta, and it would be difficult to find, within recent times, in the whole of India a parallel to the events that have taken place in Calcutta during this outbreak of communal frenzy, since, during the course of seven days, no less than three temples and three gurudwaras were attacked or desecrated and five others were threatened.

Attacks on mosques, however, have not occurred since the beginning of the 18th century (*circa* 1712 A.D.), when the Sikhs, under the leadership of Banda, a *bairagi*, destroyed a number of *masjids*, in revenge for the destruction by Aurangzeb of Hindu temples. From that date until the present time, destructive attacks on mosques have been practically unknown, but in the present instance five mosque were attacked and attempts were made to attack two others, while attacks were made on three *dargahs*, one of which was entirely razed to the ground. These acts of vandalism have unquestionably intensified to an unprecedented degree the bitterness and hatred existing between the

two communities, of which they are themselves the symptoms, and it is impossible to say how long this acute antagonism will continue.

Incendiarism.—Another remarkable feature of the riots was the extraordinary degree to which incendiarism was resorted to by the rioters and, there is no doubt that, but for the splendid efforts of the Fire Brigade, an enormous conflagration causing incalculable losses in human life and property would have resulted. Incendiarism has been employed by the conflicting parties in previous disturbances, but the extent to which this means of revenge was employed in the present instance is entirely unprecedented. During the four days ending the 6th April, no less than 151 fires were caused by the rioters and, although the resources of the Fire Brigade were considerably strained by this unparalleled call on their services and despite the difficult conditions under which they were frequently called upon to work, the Fire Brigade succeeded in all cases in confining the fires to the premises of origin. The first fire caused by rioters occurred on the 3rd instant and, between 10 A.M. and 1 P.M. on this date, the Fire Brigade extinguished no less than 51 fires which probably constitutes a world's record. The control of this extraordinary wave of incendiarism would have been impossible, however, but for the very commendable foresight of the Chief Officer, who, at the first sign of danger, arranged for the maintenance of the maximum pressure of water in all the water mains in the disturbed area and allotted additional machines and staff to the Fire Station which received most of the calls.

The method chiefly employed by the incendiaries was to break open a window or a door and to throw into the premises a piece of cloth which had been saturated with kerosene oil and then ignited, but in many instances petrol was poured into the premises and set on fire.

It is interesting to record that, although the crowds frequently behaved in a threatening manner when fires, which they had ignited, were being extinguished, they did not interfere except on one occasion when the Fire Brigade were extinguishing a fire in the Jumma Pir Dargah near the junction of Harrison Road and Clive Street. On this occasion, the Fire Brigade were severely stoned, but fortunately only two members of the staff were wounded and their injuries were comparatively slight. In many cases, the Fire Brigade found, on arrival, that people in the premises had been cut off by the flames, but in all cases they arrived in time to rescue these people from danger. In at least three of these cases, the inmates had been actually locked in by the incendiaries. It is difficult to estimate how many lives they were thereby enabled to save, but the number must have been considerable.

Valuable services were also rendered by the Ambulance Department of the Fire Brigade throughout the riots, in conveying wounded persons to hospital. All the members of the staff were mobilised for duty in connection with the riots and, although they were frequently in positions of considerable danger, they performed their duty with unremitting zeal and were responsible for the safe conveyance of about 400 wounded persons to hospital.

The great efficiency displayed by these two departments and their ability to prove equal to the demands of an unprecedented situation reflect the greatest possible credit on Captain B. A. Westbrook and afford eloquent testimony of his powers of organization.

A material factor in the successful manipulation of the Fire Brigade and the Ambulance Department was the efficient working of the Fire Alarm System, which is maintained in conjunction with the Telephone Company. Several thousand messages were transmitted to the Fire Brigade Headquarters, but in no case was there any material delay and, since any such delay might have resulted in a serious conflagration in cases where fires broke out in congested areas, the thanks of the public are due to the telephone operators for their arduous and efficient work in this connection.

Sikhs.—Another feature of the riots, which is worthy of comment, is the conduct of the Sikhs, who throughout the riots conducted themselves with most commendable restraint in spite of considerable and repeated provocation.

* * * * * *

The whole Sikh community in Calcutta are to be congratulated on the restraint which they exhibited in the face of such severe provocation, and great credit is due to the leaders for their powers of control and for the very commendable public-spiritedness displayed by them.

On the 13th April, the annual procession of the Sikhs was forbidden by the Commissioner of Police, in view of the danger of the situation at that time. The Sikhs were far from willing to acquiesce in what they considered to be a further concession to outrageous Muhammadan demands and there was some talk of defying the order, but ultimately saner counsels prevailed and the procession was postponed.

Indian Press.—Possibly the most disappointing feature of the riots, in view of the desire of Government to promote the growth of self-government in India, was the irresponsibility displayed by the Press. So far, indeed, from assisting the authorities in controlling the situation, the whole of the vernacular press, in a greater or less degree, devoted their energies to inciting the followers of their respective religions, and to fomenting the existing attitude of disobedience towards the authorities engaged in restoring law and order. Some of the newspapers were admittedly worse than others, but all took full advantage of the absence of any legislation to control their productions and, on the 9th of April, the Hon'ble Member convened a conference of journalists, for the purpose of impressing on them their duties in regard to the riots. This conference had a salutary effect, but almost all the vernacular press continued their former propaganda, though in a subdued degree. Their chief offences were the publication of false or one-sided reports of incidents, which were calculated to incite their readers to retaliatory acts, unbridled criticism of the action taken to suppress the riots, which was calculated to promote general dissaffection towards the executive authorities, and the publication of inflammatory leaflets issued by the opposite community. It is impossible to over-emphasise the danger of this form of propaganda, since the majority of the persons engaged in the rioting are

almost wholly illiterate and derive their information from the newspapers which a few of their number are able to read aloud to them, and the natural result is that they are spoon-fed with highly sensational and extremely biased reports which they are only too ready to believe.

* * * * * *

Leaflets.—Towards the conclusion of the first phase of the riots, both the contending factions began to indulge in a highly mischievous and dangerous form of propaganda by means of anonymous leaflets, which advocated the commission of murder and other acts of violence, in retaliation for the excesses committed by the opposing party. These leaflets have been very numerous and have taken a variety of forms such as notices, *fatwas* and communiqués regarding incidents or defining the general situation. They have been published in almost all the languages employed in Calcutta, and even the less dangerous types, such as the pamphlets issued by the various Relief Committees, explaining the functions of these Committees in connection with the riots, have played an important part in exacerbating the existing tension between the two communities.

* * * * * *

Defence Parties.—Immediately after the outbreak of attacks on religious institutions on the 3rd April, proposals were made to organise defence parties for the protection of Hindú temples. Some defence parties were actually formed, notably the "Bray Club" in the jurisdiction of the Bartola police-station, the South Calcutta Defence Force under the presidency of Mr. S. N. Haldar, and another band of Bengali youths, who, under the leadership of Pulin Das, Nanda Ghosh and Nera Ghosh, defended the Kali temple in Kalitola.

* * * * * *

Early in the riots, the Commissioner of Police was approached by Mr. J. M. Sen Gupta, Mayor of Calcutta, with a proposal that the latter should organise volunteer defence parties for the protection of mosques and temples and to assist in the work of restoring order. In discussing this proposal, the Commissioner explained to Mr. Sen Gupta the necessity, firstly, for recruiting these volunteers equally from both communities and, secondly, for their enrolment as "special constables" under the control of the Police authorities. Mr. Sen Gupta expressed considerable doubt regarding his ability to provide the necessary Muhammadan contingent and, in subsequent correspondence with the Commissioner, made it clear that in no case could he sanction the subordination to official control of any volunteers recruited by him. In the special circumstances existing at present, the employment of such independent bodies would be fraught with many obvious and serious dangers and Mr. Sen Gupta's attitude made it impossible to pursue the matter any further. Attempts are still being made by the Police, in co-operation with prominent Hindu and Muhammadan gentlemen, to organise mixed defence parties of properly enrolled volunteers. Apart, however, from the difficulties of recruitment, it is impossible to say, without experience, how far such volunteers could be usefully employed in a communal disturbance.

It has been alleged that the refusal of the Commissioner of Police to recognise unenrolled volunteers deprived the public of a certain measure of protection. This contention, however, entirely ignores the obvious dangers inherent in the employment of bodies of men liable to be swayed by communal feeling and entirely divorced from effective control. These dangers so greatly outweigh the advantage of such protection as might have been afforded by these volunteers that the allegation carries its own refutation.

Exodus of members of the public from Calcutta.—Even in the early days of the riots, the panic in the disturbed area was so great that a number of people left their residences for other localities and, from the 3rd instant until after the conclusion of the riots, there was a daily exodus of people of all classes from this portion of Calcutta. Generally speaking, the Marwaris and the Hindus intended that their departure should be purely temporary and proceeded to their garden-houses or to the houses of their friends outside the disturbed area, until such time as it should be possible for them to return. Many Muhammadans, however, have left the city with the intention of remaining absent for some considerable time and have returned to their original homes. It is impossible to compute, even approximately, the number of persons who have thus left their homes in Calcutta, either temporarily or permanently, but it is safe to say that their numbers have run into many thousands.

Behaviour of the Police.—This report would be incomplete without some reference to the adverse criticism which has been freely levelled

against the Police by all sections of the community. Criticism of this character is not lacking, even in normal times, and from the very nature of the riots, it was only to be expected that there would be an outburst of unbridled criticism, since the Police were required to hold the balance between two violently opposed factions, whose members were blinded to all reason by religious prejudice and were impatient of any sort of control.

* * * * * *

It must, nevertheless, be admitted that, in the nature of things, the great preponderance of Hindus in the force, whether officers or constables, does afford some ground for the apprehensions of the Muhammadans that, in a communal crisis of this nature, Police measures may be conducted in a partisan spirit. It would, however, be grossly untrue to assert that this spirit has influenced, to any appreciable extent, the general conduct of the Police in the present riots. It would be too much to expect that individual members of the force should not entertain sympathies for their co-religionists engaged in the struggle or that, in a force numbering some 5,000 officers and men, these sympathies should not influence their actions in some isolated cases, but, generally speaking, it can be fairly maintained that the members of the force have subordinated their personal feelings to their sense of duty and have conducted themselves with most commendable impartiality in extremely trying circumstances.

The general body of criticism has been so vague and general in character that it has been impossible to undertake any investigation into the great majority of the allegations levelled against the Police, either individually or collectively. Such of the allegations, however, as have been supported by evidence are being carefully examined by responsible officers, but, in almost all instances, these allegations are found to be entirely baseless. The delay in examining these charges is due, firstly, to their vagueness, and, secondly, to the fact that practically the whole Police force have been continuously and fully engaged in quelling the riots.

Mention has already been made of the one outstanding case, in which it has been found that constables were guilty of removing articles from shops which had been looted. These constables have been dismissed, in default of sufficient evidence to warrant criminal prosecution.

As against this instance of a true allegation, the following may be quoted in illustration of the baseless charges which have been so freely levelled against the force, even by persons of public prominence and high position:—

On the 4th April Mr. H. S. Suhrawardy, Deputy Mayor of Calcutta, personally complained to the Commissioner that the Police and the Military had that day looted a shop at No. 37, Kengrapatti, Burra Bazar. The Assistant Commissioner of the Detective Department (Mr. Hartley) and Inspectors Robertson, Malins, and P. N. Mukherji, all of the Detective Department, were immediately deputed to accompany Mr. Suhrawardy to the scene of the alleged occurrence. A full enquiry was held without delay and it was found that the charge was entirely baseless. The shop in question was intact and a large number of the local residents testified that no looting whatever had taken place in that particular locality that day. The Assistant Commissioner found, however, that two cloth-shops, at No. 47, Kengrapatti, had been looted on the previous day, but an eye-witness of the occurrence, who was produced by Mr. Suhrawardy, declared that no Police or Military were in the locality when the looting took place.

Government are already aware of the great and valuable services rendered by the Military and Auxiliary Forces and the Eastern Frontier Rifles, and the facts relating to individual officers and units requiring special mention have been separately brought to notice. Without their aid, the situation could not have been brought under control and the thanks of the public are therefore due to General Ward and his staff and to the Inspector-General of Police for their ready and generous assistance.

A separate report will similarly be submitted to Government regarding the good work done by individual officers and men of the Calcutta Police and the officers of the Bengal Police, who so generously volunteered their services.

MARINE DEPARTMENT.

NOTIFICATIONS.

No. 78Marine.—In exercise of the power conferred by section 3 of the Indian Registration of Ships Act, 1841 (X of 1841) and in supersession of all previous orders on the subject, the Governor in Council is pleased to appoint the Port Officers, Calcutta and Chittagong, to be the officers for the registration of ships and grant of certificates of registry under that Act, at the ports for Calcutta and Chittagong respectively.

No. 79 Marine.—The 9th June 1926.—In exercise of the powers conferred by section 126 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), the Governor in Council, with the previous sanction of the Governor-General in Council, is pleased to declare that the provisions of sub-section (*1*) of section 125 of the said Act shall not apply—

(*1*) to a steam-ship having a valid certificate of survey granted either by the Government of Hong-Kong or by the Government of the Straits Settlements, and

(*2*) to a steam-ship having a certificate granted by either of the said Governments which has expired just before or after arrival of the ship at a port in British India, if the ship is returning direct to her home port and there is no reason to doubt her seaworthiness.

ENGINEERS FOR MOTOR SHIPS.

No 2255 Marine.—The 14th June 1926.—Section 11 of the Indian Merchant Shipping Act, XXI of 1923, requires that every British foreign-going steamship shall be provided (*a*) if the ship is of 100 nominal horse power or upwards, with at least 2 Engineers, one of whom shall be a first class and the other a first or second class engineer duly certificated and (*b*) if the ship is of less than 100 nominal horse power, with at least one Engineer who is a first or 2nd class Engineer duly certificated and that every British home trade steamship when going to sea from any place in British India and every foreign steamship carrying passengers between places in British India shall be provided, if the ship is of 50 nominal horse power or upwards, with at least one Engineer who is a first or 2nd class Engineer duly certificated.

2. Section 12 states that an Engineer shall not be deemed duly certificated unless he holds a certificate of a grade appropriate to his station in the ship or of a higher grade.

3. Section 3 of the same Act provides that the provisions of the Act applying to Steam Ships shall apply to ships propelled by other mechanical power with such modifications as the Governor-General in Council may by notification in the *Gazette of India* direct for the purpose of adaptation, *vide* Government of India, Commerce Department notification No. 1775, dated the 5th March 1921.

4. Certificates of Competency for Engineers of Ships propelled by internal combustion engines are known as 'motor certificates' as distinct from 'ordinary certificates' which are issued to Engineers of Steam Ships and the conditions on which they are granted are shown in the Rules issued by the Government of Bengal for the examination and grant of Certificates of Competency to Engineers of Sea-going Steam Ships (Bengal Government notification No. 67Mne., dated 13th June 1925).

5. The 1925 edition of these rules announces that after 1st July 1925 ordinary certificates will not entitle the holders to go to sea as Engineers in ships propelled by internal combustion engines unless endorsed for that purpose.

6. In order to avoid inconvenience to owners in providing such Engineers, the Government of Bengal are prepared to consider applications for the issue of temporary permits enabling Engineers who hold ordinary certificates of competency to act as Engineers of motor ships subject to compliance with the following conditions.

7. The application should be made by the owner of the ship to the Port Officer of Calcutta through the Principal Engineer and Ship Surveyor two weeks at least before the permit is required; it should state the name of the ship and its official number (if registered) or the builders number in the case of a new ship which is not yet registered, and the name of the Engineer, the rank in which he is to serve, and the grade and number of his ordinary Certificate of Competency; and it should indicate generally the extent of his workshop and sea service both on steam engines and on internal combustion engines, and in particular the nature and amount of his experience (whether in the works or at sea) of the type of internal combustion engines installed in the ship.

8. If a permit is issued, it will as a rule hold good for a period of twelve months actual sea service, and it will therefore enable the Engineer to complete the nine months' service in motor ships necessary to qualify for examination for a motor endorsement. The examination for such endorsement will be especially adjusted to meet the case of Engineers who have already had long sea service, and a large part of it will be oral. If by the time he has completed twelve months' sea service in motor ships while holding the permit the Engineer has not obtained a motor endorsement, the permit will lapse unless, in view of the special circumstances of the case, the Port Officer of Calcutta should, subject to the sanction of the Local Government, extend it.
